No. P.—8 OF 1924.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY.

*Poona, 29th July 1924.*

From

MAJOR-GENERAL A. HOOTON, C.I.E., K.H.P., I.M.S.,
Surgeon-General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
GENERAL DEPARTMENT, BOMBAY.

Sir,

I have the honour to submit, for the information of Government, the Triennial Report on the Mental Hospitals in the Bombay Presidency for the years 1921-1923.

*Buildings and Repairs.*

2. The annual repairs to the hospital buildings have been carried out by the Public Works Department.

3. New works, etc., as shown below were carried out at various hospitals during the triennium.

(*a*) A ward for 12 female criminal insanes and a dining shed were built at the N. M. Mental Hospital, Naupada, and some minor improvements, such as covering the rafters over the barred gangways leading to the privies in the cells and barbed wire fencing round the quarters of the clerk, compounder and Brahmin cook, marble flooring to the sick room, expanded metal screens round two workshops and trellis work for two bathing platforms were effected.

(*b*) At the Ratnagiri Mental Hospital the verandahs of barracks and cells and the Office buildings, etc., were paved with Shahbad stone. Additional fire buckets and shelves in the store-room were provided, six old pattern latrines were converted into new pattern ones. An iron barred gate in the southern compound wall and iron webbing to windows of servants' quarters were provided. The compound wall between the hospital and the Senior Medical Officer's quarters and a partition wall in servants' quarters were raised and special repairs to the compound gates were carried out,

(*c*) At the Central Mental Hospital, Yeravda, the following works were carried out :—

(1) Rebarring of some windows in the male acute section.

(2) A new block of six rooms in the Indian male section.

(3) Observation blocks outside the enclosing walls.

(4) A block of 'unmarried' quarters for 16 male attendants.

(5) New and superior quarters for Steward, Supervisor and Nurses.

(6) Division of the European male dining room into two dining rooms.

(7) Conversion of a block 48 (extra Day room) into two dormitories for Indian males.

(8) Improvement and enlargement of Deputy Superintendent's quarters.

(9) Improvement of bathing platforms in Indian wards.

(10) The electrical installation which has proved very efficient since 1913 has been to some extent re-organised during the triennium owing to the supply of electric power outside the Hospital and the Central Prison, the engines have been trebled in strength, thereby enabling the Mental Hospital to obtain the current required for the electric heaters for bath water now being installed and the Cinema. The staff of the Power House have rendered very satisfactory and harmonious work throughout the triennium.

(*d*) At the Dharwar Mental Hospital the quarters of the two S. M. S. Officers were stone-paved.

(*e*) At the Hyderabad Mental Hospital the barracks for convalescent criminal insanes was converted into four cells.

*Water supply.*

4. During the triennium under review the supply of drinking water has on the whole been good and sufficient at all the Mental Hospitals, though it was somewhat defective at Yeravda and Ahmedabad, specially during the hot seasons.

5. It is understood that a new tank is to be erected near the Central Prison, Yaravda, and the main augmented, so that it is hoped sufficient water would be available after the rains. The present site of the Central Mental Hospital, Yeravda, was selected mainly because river water was available for gardening, flushing and other purposes. This has not yet been accomplished for want of funds and the continued use of the filtered water for gardening purposes and flushing W. Cs is obviously costly. It may, however, be stated that the vegetable out-turn and saving of water cost would speedily pay for the cost of the river water installation.

6. The well water at Hyderabad Mental Hospital is liable to contamination. A pipe supply from the Indus was recommended and sanctioned. It is hoped the work will now be taken up.

STATEMENT No. I.

*Total population.*

7. During the year 1923 the total population of the Mental Hospitals was 1,933 as compared with 1,905 in 1922 and 1,938 in 1921. The mean population for the triennium was 1,925 as compared with 2,024 in the previous triennium, a decrease of 5·1 per cent. The average male and female populations were 1,482 and 443 against 1,602 and 422, respectively, in 1918-1920.

8. During the triennium the average admissions including readmissions were 405 males and 86 females against 542 males and 95 females respectively in the previous triennium.

*Daily average strength.*

9. During the year 1923 the average strength was 1,481·9 as compared with 1,443·0 in 1922 and 1,436·2 in 1921. The mean daily average strength for the triennium was 1,453·7 against 1,425·0 for previous three years.

*Discharges and Cures.*

10. On an average there were 330 males and 28 females cured during 1921-1923 against 253 males and 37 females in 1918-1920. The average numbers shown as 'Improved' and 'not improved' against the insanes returned as " transferred to friends " for 1921-1923 were 69 and 24 respectively against 78 and 26 respectively for 1918-1920.

*Sickness.*

11. The daily average number of sick treated in hospital during the year 1923 was 56·9 as compared with 58·0 in 1922 and 61·4 in 1921. The mean average for the triennium was 58·8 against 49·5. The percentage of sickness to the daily average strength was 3·8 in 1923, against 4·0 in 1922 and 4·3 in 1921, the average for the triennium being 4·0 against 3·4 for 1918-1920.

12. The health of the inmates at the Naupada Mental Hospital was very indifferent during 1921, owing to the prevalence of influenza for which 76 were admitted during the year. Bowels complaints (99) were also largely responsible for this condition. Influenza prevailed in Ratnagiri Mental Hospital from 26th January to 11th February 1921, giving 36 cases of which 3 proved fatal. Of the 36 cases 15 were inoculated with influenza vaccine in February 1920 and 21 were uninoculated. The general health of the insanes at other Mental Hospitals was satisfactory during the triennium.

*Mortality.*

13. There were 98 deaths in 1923 against 117 in 1922 and 157 in 1921. The average mortality for the three years was 124 as compared with 198 in 1918-1920. The ratio of deaths to the daily average strength was 6·6 as compared with 8·2 in 1922 and 10·9 in 1921. The mean death rate on the daily average strength during the three years 1921-1923 was 8·6 against 13·9 in 1918-1920.

14. The following table gives the ratio per cent. of deaths to the daily average strength at the several Mental Hospitals during the two triennia :—

| Mental Hospitals. | 1921 | | | 1922 | | |
|---|---|---|---|---|---|---|
| | Males. | Females. | Total. | Males. | Females. | Total. |
| Naupada, Thana ... | 29·2 | 18·2 | 26·9 | 16·5 | 15·9 | 16·4 |
| Ratnagiri ... | 11·1 | 2·5 | 9·0 | 8·5 | 11·5 | 9·2 |
| Central Mental Hospital, Yeravda. E. | 7·2 | ... | 3·6 | 9·4 | 6·8 | 8·1 |
| Central Mental Hospital, Yeravda. I. | 7·5 | 4·0 | 6·6 | 5·2 | 2·4 | 4·5 |
| Dharwar ... | 8·9 | 6·8 | 7·7 | 7·7 | 1·9 | 5·8 |
| Ahmedabad ... | 3·1 | 18·2 | 6·1 | 3·9 | 14·0 | 6·1 |
| Hyderabad ... | 8·6 | ... | 7·8 | 8·3 | ... | 6·6 |

| Mental Hospitals. | 1923 | | | Mean for 1921—1923. | | | Mean for 1918—1920. | | |
|---|---|---|---|---|---|---|---|---|---|
| | Males. | Females. | Total. | Males. | Females. | Total. | Males. | Females. | Total. |
| Naupada, Thana ... | 14·9 | 20·1 | 16·3 | 20·2 | 18·1 | 19 9 | 18·1 | 14·2 | 17·3 |
| Ratnagiri ... | 6·4 | 9·0 | 7·1 | 8·7 | 7·6 | 8·4 | 5·5 | 3·0 | 4·9 |
| Central Mental Hospital, Yeravda. E. | 2·5 | 1·7 | 2·2 | 6·4 | 2·8 | 4·6 | 8·5 | 5·6 | 7·2 |
| Central Mental Hospital, Yeravda. I. | 2·2 | ... | 1·7 | 5·0 | 2·1 | 3.6 | 9·7 | 6·4 | 8·9 |
| Dharwar ... | 5·7 | 6·1 | 5·8 | 7·4 | 4·9 | 6·4 | 17·9 | 13·5 | 17·1 |
| Ahmedabad ... | 7·9 | 6·8 | 7·6 | 5·0 | 13·0 | 6·6 | 14·9 | 22·1 | 16·3 |
| Hyderabad ... | 5·1 | 11·3 | 6·0 | 7·3 | 3·8 | 6·8 | 29·8 | 47·3 | 31·2 |

15. The chief causes of deaths at the several Mental Hospitals during the three years were Tuberculosis 44, Pneumonia 25, Valvular diseases of the heart 23, Anæmia 22, Dysentery 23, Diarrhœa 17, Influenza 6, and Digestive system 17.

## Statement No. I-A.

### *Cases under observation.*

16. There were 7 cases under observation at the Central Mental Hospital, Yeravda, during 1923 against 19 in 1922 and 18 in 1921. The average for the triennium was 15.

17. Of the 7 cases under observation 6 were certified and admitted into the hospital against 18 in 1922 and 14 in 1921 and 1 released as uncertifiable as in the previous two years.

## Statement No. II.

### *Criminal Insanes.*

18. During the year 1923 the total number of criminal insanes confined in the Mental Hospitals was 256, of whom 238 were males

and 18 females as compared with 227 males and 17 females in 1922 and 239 males and 15 females in 1921. The average population was 251 against 236 in the previous triennium. The daily average strength was 191·5 against 184·6 in 1922 and 196·0 in 1921, the mean for the triennium being 190·7 against 186·3 in 1918-1920.

## Statement No. III.

*Religion, sex and residence of the insanes admitted.*

19. The following table shows the nationality of the patients admitted and re-admitted during the three years and the average for the two triennia :—

| — | 1923 | 1922 | 1921 | Average. | |
|---|---|---|---|---|---|
| | | | | 1921-1923 | 1918-1920 |
| Hindus ... ... | 272 | 259 | 310 | 280 | 341 |
| Mahomedans ... ... | 150 | 126 | 115 | 130 | 160 |
| Europeans and Eurasians ... | 34 | 26 | 25 | 28 | 54 |
| Indian Christians ... ... | 40 | 33 | 34 | 36 | 34 |
| Other castes ... ... | 19 | 10 | 22 | 17 | 24 |

## Statement No. IV.

*Previous occupation of the insanes admitted*

20. Domestic and private servants numbering 117 furnished the largest number of admissions during the triennium under review followed by labourers (113), cultivators (98), merchants and traders (79), clerks (59), mendicants and vagrants (50), and artisans (43).

## Statement No. V.

*Ages of insanes admitted.*

21. The admissions and readmissions according to age were as under :—

| — | 1923 | 1922 | 1921 | Average. | |
|---|---|---|---|---|---|
| | | | | 1921-1923 | 1918-1920 |
| Under 20 ... ... | 42 | 41 | 39 | 41 | 39 |
| Between 20 and 40 ... ... | 371 | 316 | 396 | 361 | 502 |
| Between 40 and 60 ... ... | 94 | 93 | 67 | 85 | 89 |
| Upwards of 60 ... ... | 7 | 4 | 4 | 5 | 4 |

## Statement No. VI.

*Types of insanity.*

22. The principal types of insanity treated during the three years were mania 2,336 against 2,819, Malancholia 988 against

1,055, dementia 635 against 723, delusional insanity 376 against 607, insanity caused by cannabis indica or its preparations or derivatives 364 against 230, idiocy 163 against 269 and mental stupor 131 against 157.

STATEMENT No. VII.

*Aetiological factors and associated conditions in the insanes admitted.*

23. The principal predisposing and exciting causes were mental stress 64 in 1923, 45 in 1922, and 49 in 1921, the abuse of intoxicants 74 against 63 and 80, mental instability 44 against 46 and 53, and toxic diseases 20 against 28 and 45 respectively. Owing to insufficient history the causes of insanity were not ascertained in 166 cases as compared with 178 in 1922 and 191 in 1921.

STATEMENT No. VIII.

*Cash accounts.*

24. The receipts from paying patients amounted to Rs. 83,985 as compared with Rs. 77,548 in 1922 and Rs. 74,195 in 1921. The average receipts for the triennium was Rs. 78,576 against Rs. 70,808. The value of stores received from the manufacturing department less cost of raw materials was Rs. 12,827 as compared with Rs. 12,479 in 1922 and Rs. 8,912 in 1921, the average value for the past three years amounting to Rs. 11,406 against Rs. 9,659 for 1918-1920.

25. The total expenditure amounted to Rs. 7,74,413 against Rs. 6,71,283 in 1922 and Rs. 7,18,418 in 1921. Deducting the receipts from paying patients, the value of stores received from the manufacturing department and the amounts realised on account of the sale of goods to the public, etc., the net expenditure was Rs. 5,66,059 as compared with Rs. 4,71,855 in 1922, and Rs. 5,36,266 in 1921. Excluding the Public Works Department charges the net expenditure for the triennium under review, as compared with the mean of the previous triennium was :—

| | | Rs. |
|---|---|---|
| | 1923 ... ... | 4,20,906 |
| | 1922 ... ... | 4,26,793 |
| | 1921 ... ... | 4,90,704 |
| Average | 1921-1923 ... ... | 4,46,134 |
| | 1918-1920 ... ... | 3,30,920 |

26. The cost per head of daily average strength was Rs. 264 against Rs. 296 in 1922 and Rs. 341 in 1921, the mean for the triennium being Rs. 307 as compared with Rs. 232 in the previous triennium.

*Amusements.*

27. Rs. 2,677 were spent for the amusement of insanes during 1923 as compared with Rs. 4,440 expended in 1922 and Rs. 2,656 in 1921. The average expenditure for amusement during the triennium was Rs. 3,258 against Rs. 2,493 in 1918-1920.

STATEMENT No. X.

*Receipts and expenditure on account of manufacture.*

28. The total credits of the manufacturing department amounting to Rs. 15,532, as compared with Rs. 15,533 in 1922 and Rs. 11,990 in 1921. The mean profit for the triennium was Rs. 14,352 against Rs. 11,312 in 1918-1920.

29. The chief employment of insanes continued to be gardening and performing domestic duties connected with the Mental Hospitals. Those who are capable of working in the Hospital factories are employed on weaving and cane work. The average insanes employed during the triennium was 360·2 against 367·4 in 1918-1920.

*Visitors.*

30. The official visitors were regular in their attendance at all the Mental Hospitals during the triennium.

*Management.*

31. The general management of the Mental Hospitals has been satisfactory. The designation "Lunatic Asylums" has been changed to "Mental Hospitals".

I have the honour to be,

Sir,

Your most obedient servant,

A. HOOTON,

Major-General, I.M.S.,

Surgeon-General with the Government of Bombay.
